OFFICE MEMORANDUM

Subject :- Restoration of commuted portion of pension-
Clarification regarding.

The undersigned is directed to refer to this Department O.M.No.34/2/86-P&PW dated the 5th March, 1987 on the subject mentioned above and to say that it has been provided therein that such Central Government pensioners who have commuted a portion their pension and on 1.4.1985 or thereafter have completed or will complete 15 years from their respective dates of retirement will have their commuted portion of pension restored. This is based on the assumption that the reduction in pension on account of commutation which takes place only after the payment of the lump sum commuted amount, may be discontinued after the commuted amount paid in lump sum together with notional interest on the amount got, by and large, fully adjusted by that portion of pension which was not actually paid monthly in view of commutation. It is, therefore, not correct to reckon the 15 year period for restoration from the date of retirement except in cases whether commutation of pension has been simultaneous with case retirement.

2. It has also come to the notice of the Government that with the intention of getting an unintended advantage some pensioners who have not commuted so far have now sought commutation. Some of these pensioners are in the 15th year of their retirement. If, in their case, the 15 year period prescribed for restoration is reckoned from the date of their retirement, while the commutation entitlement will be paid in full to them, they would suffer reduction in pension only for a few months till the 15 year limit is reached. There are other pensioners who have already crossed the 15-year limit. In their case, application of the 15 year limit from the date of their retirement would mean that there can never be any recovery towards the commuted amount paid to them as the 15-year period had already expired. This is not the correct position.

3. With a view to ensuring that the decision regarding restoration of the commuted portion of pension is uniformly applied in all cases according to its true intentment, it is clarified that the 15-year period for restoration may be reckoned from the date of retirement itself only in cases, whether commutation of pension was/is simultaneous with retirement. In other words, cases where payment of the commuted value of pension was/is made during the first month of retirement leading to appropriate reduction on account of commutation in the first pension itself will be deemed to be falling in this category. In all other cases, i.e., whether commutation of pension led leads to a reduction in the second or subsequent month, the 15-year period will be reckoned from the date of commutation ~~xxx~~ i.e., from the date on which reduction in pension on account of commutation became/becomes effective. Where the date of commutation is not readily available in the pension documents in the Pension Disbursing Offices (PDO), e.g. PPO, etc., the PDO will obtain this ~~xxx~~ information from the Accounts Offices which issued the PPO before restoring the commuted portion of pension.
